

Panel Discussion B - Panelist

Mr. Philippe Gerretsen

Senior Manager

Energy Project Development

Nikola

Philippe Gerretsen is Nikola's Director of Customer Fueling Solutions and is responsible for developing solutions to support customers' fuel cell truck infrastructure and fuel supply requirements under Nikola's total cost of ownership bundled lease model. He also engages in regulatory policy and technical discussions on behalf of Nikola, including through his role on the Board of Directors of the California Hydrogen Business Council, to advance market opportunities for the development of a hydrogen economy. Prior to his current role, Mr. Gerretsen was responsible for renewable electricity procurement and fueling station development.

Prior to joining Nikola, Mr. Gerretsen was a Principal Advisor at Southern California Edison. During the nine years he worked at Southern California Edison, he held several roles involving wholesale power procurement and contract management, regulatory policy development, and business strategy.

Mr. Gerretsen earned a Masters of Science in Mechanical Engineering from the University of Southern California and a Bachelors of Science in Mechanical Engineering from the University of California, Los Angeles.
